TECHNICAL SKILLS

◉ Programming Languages
- Javascript
- C
- Java

◉ Web Development
- Material-UI
- Boostrap
- HMTL / CSS
- Spring Boot
- NodeJS
- ExpressJs
- ReactJS

◉ Database
- MySQL
- MongoDB
- MsSQL

◉ IDE
- Vs Code
- IntelliJ
- CLion
- NetBeans

◉ Other
- AWS
- Postman
- Figma
- Git
- Trello

PERSONAL PROFILE

I am a dedicated, hardworking and competent software engineer with excellent skills of problem solving. I'm passionate in learning new technologies.

EDUCATION

◉ **UNIVERSITY OF MORATUWA | 2022**
BSc (Hons) in Information Technology
(Expected in 2025)
University of Moratuwa

- Current GPA: 3.36 up to L2S1 (Out of 4.00).
- L2S1 CGPA: 3.56

◉ **KATUWANA NATIONAL SCHOOL | 2007 - 2020**
GCE Advanced Level - 2020
Maths stream

- Z-Score : 1.7805.
- Combined Mathematics : A
- Chemistry : A
- Physics : B

PROJECTS

◉ **XPRESS - PERSONAL COURIER SERVICE PLATFORM**
Level 02 Software Development Project

- This system manages personal courier services, improving communication and trust issues with external providers. It functions via web and mobile apps, and I played a key role in developing the web application.

- Role | **Full Stack Developer**

- Tech Stack | **ExpressJs, MySql, NodeJS, AWS, ReactJs**

- github.com/orgs/Courier-Service-Project/repositories

LANGUAGES

- English
- Sinhala (Native)
- French (Basics)

SOFT SKILLS

- Problem Solving
- Public Relations
- Teamwork
- Leadership
- Effective Communication
- Critical Thinking

INTERESTS

- Web Development
- Learning Technical Skills
- Cloud Computing

COMPETITIONS

- **Code Rush - Organized by INTECS**
  University of Moratuwa (2022)

- **Code Rush - Organized by INTECS**
  University of Moratuwa (2023)

- **Hackmoral 5.0**
  University of Moratuwa (2023)

- **Real Hack 4.0**
  University of Kelaniya (2023)

LIQUID DISPENSER SYSTEM
Level 01 Hardware Project

- Developed an automated oil dispenser system to optimize oil distribution in industrial and commercial settings, reducing manual handling and waste. This solution enhances efficiency and precision, benefiting businesses and consumers.

- Used | **Arduino Mega, Sensers, Electronic component**

CRICKET INFO MANAGEMENT SYSTEM
Ongoing Project

- Developed a Cricket Info Management System to store and manage member details, enabling easy search and retrieval of student information, including cricket pass details.

- Tech Stack | **ExpressJs, MongoDB, NodeJS, ReactJS**

- github.com/Madhushankms/cricket_Info
